PROFESSIONAL SUMMARY

Motivated and Result-oriented Fullstack Developer with 5+ years of experience in building and optimizing web applications using Angular (v14+), Node.js, and MySQL. Proven expertise in performance tuning, modular architecture, scalable deployments, and integrating third-party services. Strong understanding of frontend design systems, RESTful APIs, and enterprise application lifecycles. Currently upgrading my skillset to Angular v19+. Eager to contribute to a dynamic team and deliver high-quality solutions.
